User's guide xxiv

unit 1

Contemporary concepts in nursing 1

1 Healthcare delivery and evidence-based nursing practice 3

- Healthcare industry and the nursing profession 3
- Health, wellness and health promotion 5
- Influences on healthcare delivery 7
- Quality, safety and evidence-based practice 9
- Professional nursing practice 11

2 Community-based nursing practice 16

- Community-based care 16
- Home healthcare 23
- Other community-based healthcare settings 27

3 Professional practice 31

- Person-centred care 31
- Critical thinking 33
- Ethical nursing care 37
- Cultural safety 42
- The nursing process 49
- Patient education and the nursing process 59

unit 2

Generic concepts in nursing practice 63

4 Adult health and nutritional assessment 65

- Conducting a health history and physical assessment 65
- Health history 66
- Physical examination 75
- Nutritional assessment 78

5 Overview of genetics and genomics in nursing 88

- The Human Genome Project 88
- Genomic framework for nursing practice 88
- Integrating genetic and genomic knowledge 90
- Genetics and genomic technologies in practice 96
- Personalised genomic treatments 101
- Applications of genetics and genomics in nursing practice 103
- Ethical issues 110
- Genetics and genomics tomorrow 110

6 Homeostasis, stress and adaptation 113

- Fundamental concepts 113
- Overview of stress 114
- Stress at the cellular level 119
- Nursing management 125
- The role of stress in health patterns 129

7 Fluid and electrolytes: Balance and disturbance 131

- Fundamental concepts 131
- Hypovolaemia 138
- Hypervolaemia 142
- Sodium imbalances 144
- Potassium imbalances 148

- Calcium imbalances 152
- Magnesium imbalances 155
- Phosphate imbalances 158
- Chloride imbalances 160
- Acute and chronic metabolic acidosis (base bicarbonate deficit) 161
- Acute and chronic metabolic alkalosis (base bicarbonate excess) 162
- Acute and chronic respiratory acidosis (carbonic acid excess) 163
- Acute and chronic respiratory alkalosis (carbonic acid deficit) 164
- Mixed acid–base disorders 165

8 Shock and multiple organ dysfunction syndrome 180

- Overview of shock 180
- Stages of shock 182
- General management strategies in shock 187
- Hypovolaemic shock 188
- Cardiogenic shock 190
- Circulatory shock 193
- Multiple organ dysfunction syndrome 198

9 Pain management 202

- Fundamental concepts 202
- Pain assessment 208
- Pain management 212

unit 3

Applying concepts from the nursing process 229

10 Chronic illness, disability and rehabilitation 231

- Overview of chronicity 231
- Nursing care of patients with chronic conditions 236
- Disability 240
- Rehabilitation 251

11 Oncology: Nursing management in cancer care 257

- Epidemiology of cancer 257
- Pathophysiology of the malignant process 258
- Detection and prevention of cancer 265
- Diagnosis of cancer 266
- Tumour staging and grading 267
- Management of cancer 268
- Providing care in oncological emergencies 311
- Care of the patient with advanced cancer 311

12 End-of-life care 322

- Nursing and end-of-life care 323
- Palliative care settings for end-of-life care 326
- Nursing care at the end of life 330
- Nursing care of the patient who is close to death 344
- Coping with death and dying: Professional carer issues 349

unit 4

Perioperative concepts and nursing management 355

13 Preoperative nursing management 357

- Perioperative nursing 357
- Surgical classifications 359
- Special considerations 359
- Preparation for surgery 361
- Preoperative nursing interventions 367

14 Intraoperative nursing management 376

- The perioperative interdisciplinary team 376
- The perioperative environment 380
- The surgical experience 383
- Potential intraoperative complications 391

15 Postoperative nursing management 396

- Postanaesthetic recovery unit 396
- Care of the hospitalised PO patient 402

unit 5**Gas exchange and respiratory function 415****16** Assessment of respiratory function 417

- Anatomy of the respiratory tract 417
- Function of the respiratory system 420
- Health history 426
- Physical assessment of the respiratory system 428
- Assessment of respiratory function in the acutely or critically ill patient 437
- Respiratory studies 439
- Endoscopic procedures 442
- Biopsy 444

17 Respiratory care modalities 448

- Oxygen therapy 448
- Incentive spirometry (sustained maximal inspiration) 453
- Small volume nebuliser (mini-nebuliser) therapy 454
- Chest physiotherapy 455
- Emergency management of upper airway obstruction 458
- Endotracheal intubation 459
- Tracheostomy 460
- Mechanical ventilation 463
- Preoperative management 473
- Postoperative management 476

18 Management of patients with upper respiratory tract disorders 487

- Upper airway infections 487
- Rhinitis 487
- Viral rhinitis (common cold) 489
- Rhinosinusitis 490
- Pharyngitis 494
- Tonsillitis and adenoiditis 497
- Peritonsillar abscess 498
- Laryngitis 499
- Obstruction during sleep 501
- Epistaxis (nosebleed) 502
- Nasal obstruction 504
- Fractures of the nose 504
- Laryngeal obstruction 505
- Cancer of the larynx 506

19 Management of patients with chest and lower respiratory tract disorders 516

- Acute tracheobronchitis 518
- Pneumonia 519
- Aspiration 530
- Severe acute respiratory syndrome 532
- Pulmonary tuberculosis 532
- Lung abscess 536
- Pleurisy 537
- Pleural effusion 538
- Empyema 539
- Pulmonary oedema (non-cardiogenic) 540

- Acute respiratory failure 540
- Acute respiratory distress syndrome 541
- Pulmonary hypertension 543
- Pulmonary heart disease (cor pulmonale) 545
- Pulmonary embolism 545
- Sarcoidosis 549
- Lung cancer (bronchogenic carcinoma) 552
- Tumours of the mediastinum 555
- Blunt trauma 556
- Penetrating trauma 559
- Cardiac tamponade 562
- Subcutaneous emphysema 562

20 Management of patients with chronic pulmonary disease 565

- Chronic obstructive pulmonary disease 565
- Bronchiectasis 580
- Asthma 587
- Status asthmaticus 600
- Cystic fibrosis 601

unit 6**Cardiovascular, circulatory and haematological function 605****21** Assessment of cardiovascular function 607

- Anatomical and physiological overview 607
- Assessment of the cardiovascular system 615
- Diagnostic evaluation 628

22 Management of patients with arrhythmias and conduction problems 644

- Arrhythmias 644
- Adjunctive modalities and management 665

23 Management of patients with coronary vascular disorders 680

- Coronary atherosclerosis 680
- Angina pectoris 688
- Acute coronary syndrome and myocardial infarction 694
- Percutaneous coronary interventions 704
- Cardiac rehabilitation 723

24 Management of patients with structural, infectious and inflammatory cardiac disorders 726

- Mitral valve prolapse 727
- Mitral regurgitation 728
- Mitral stenosis 729
- Aortic regurgitation 729
- Aortic stenosis 730
- Nursing management: valvular heart disease 731
- Valvuloplasty 731
- Valve replacement 734
- Nursing management: Valvuloplasty and replacement 735
- Septal repair 736
- Cardiomyopathy 736
- Rheumatic endocarditis 743
- Infective endocarditis 745
- Myocarditis 748
- Pericarditis 749

25 Management of patients with complications from heart disease 753

- Chronic heart failure 754
- Pulmonary oedema 768
- Cardiogenic shock 770

- Thromboembolism 770
 - Pericardial effusion and cardiac tamponade 771
 - Cardiac arrest 773
- 26** Assessment and management of patients with vascular disorders and problems of circulation 778
- Assessment of vascular function 778
 - Arterial disorders 786
 - Aneurysms 799
 - Venous disorders 805
 - Lymphatic disorders 817
- 27** Assessment and management of patients with hypertension 822
- Hypertension 822
 - Hypertensive crises 832
- 28** Assessment and management of patients with haematological disorders 834
- Anatomical and physiological overview 834
 - Assessment 839
 - Diagnostic evaluation 840
 - Therapeutic approaches to haematological disorders 841
 - Blood donation 843
 - Blood processing 844
 - Setting 845
 - Pretransfusion assessment 845
 - Patient education 845
 - Complications 845
 - Nursing management for transfusion reactions 849
 - Adjunctive therapies to blood transfusion 850
 - Anaemia 851
 - Iron deficiency anaemia 855
 - Anaemias in renal disease 856
 - Anaemia of chronic disease and functional iron deficiency 856
 - Aplastic anaemia 856
 - Megaloblastic anaemias 857
 - Sickle cell anaemia 859
 - Thalassemia 864
 - Glucose-6-phosphate dehydrogenase (G-6-PD) deficiency 864
 - Hereditary spherocytosis 865
 - Immune haemolytic anaemia 865
 - Hereditary haemochromatosis 866
 - Secondary polycythaemia 867
 - Lymphocytopenia (lymphopenia) 869
 - Secondary thrombocytosis 870
 - Thrombocytopenia 871
 - Idiopathic thrombocytopenic purpura 872
 - Platelet defects 873
 - Haemophilia 874
 - Von Willebrand's disease 876
 - Liver disease 878
 - Vitamin K deficiency 878
 - Complications of anticoagulant therapy 878
 - Disseminated intravascular coagulation 878
 - Hyperhomocysteinaemia 883
 - Antithrombin deficiency 883
 - Protein C deficiency 883
 - Protein S deficiency 884
 - Activated protein C resistance and factor V Leiden mutation 884
 - Acquired thrombophilia 884
 - Acute myeloid leukaemia 887
 - Chronic myeloid leukaemia 889
 - Acute lymphocytic leukaemia 891
 - Chronic lymphocytic leukaemia 892
 - Myelodysplastic syndromes 895
 - Polycythaemia vera 896
 - Essential thrombocythaemia 897

- Hodgkin's lymphoma 900
- Non-Hodgkin's lymphomas 902

unit 7

Digestive and gastrointestinal function 911

- 29** Assessment of digestive and gastrointestinal function 913
- Anatomical and physiological overview 913
 - Assessment 918
 - Diagnostic evaluation 921
 - Pathophysiological and psychological considerations 928
- 30** Digestive and gastrointestinal treatment modalities 930
- Gastrointestinal intubation 930
 - Gastrostomy and jejunostomy 941
 - Total parenteral nutrition 945
- 31** Management of patients with oral and oesophageal disorders 952
- Dental plaque and caries 952
 - Dentoalveolar abscess or periapical abscess 956
 - Temporomandibular disorders 956
 - Jaw disorders requiring surgical management 957
 - Parotitis 957
 - Sialadenitis 957
 - Salivary calculus (sialolithiasis) 958
 - Neoplasms 958
 - Nursing management of the patient with conditions of the oral cavity 959
 - Achalasia 968
 - Diffuse oesophageal spasm 969
 - Hiatus hernia 969
 - Diverticulum 970
 - Perforation 971
 - Foreign bodies 971
 - Chemical burns 971
 - Gastro-oesophageal reflux disease 972
 - Barrett's oesophagus 972
 - Benign tumours of the oesophagus 973
 - Cancer of the oesophagus 973
- 32** Management of patients with gastric and duodenal disorders 978
- Gastritis 978
 - Peptic ulcer disease 982
 - Obesity 988
 - Gastric cancer 991
 - Gastric surgery 993
 - Duodenal disorders 995
- 33** Management of patients with intestinal and rectal disorders 998
- Abnormalities of faecal elimination 998
 - Acute inflammatory intestinal disorders 1005
 - Inflammatory bowel disease 1011
 - Intestinal obstruction 1024
 - Diseases of the anorectum 1034

unit 8

Metabolic and endocrine function 1039

- 34** Assessment and management of patients with hepatic disorders 1041
- Anatomical and physiological overview 1041
 - Assessment 1043
 - Diagnostic evaluation 1045
 - Jaundice 1047
 - Portal hypertension 1048

- Ascites 1048
- Oesophageal varices 1052
- Hepatic encephalopathy and coma 1057
- Other manifestations of liver dysfunction 1060
- Hepatitis A virus 1061
- Hepatitis B virus 1063
- Hepatitis C virus 1067
- Hepatitis D virus 1067
- Hepatitis E virus 1067
- Hepatitis G/GB virus C 1067
- Toxic hepatitis 1068
- Drug-induced hepatitis 1068
- Primary liver tumours 1080
- Liver metastases 1080
- Liver transplantation 1081
- Liver abscesses 1085

35 Assessment and management of patients with biliary disorders 1088

- Anatomical and physiological overview 1088
- Disorders of the gallbladder 1090
- Disorders of the pancreas 1098

36 Assessment and management of people with diabetes mellitus 1110

- Diabetes 1110
- Hypoglycaemia 1138
- Diabetic ketoacidosis 1141
- Hyperglycaemic hyperosmolar states 1143
- Macrovascular complications 1145
- Microvascular Complications 1146
- Diabetic neuropathies 1150
- Foot and leg problems 1151
- The patient with diabetes undergoing surgery 1153
- Managing the patient with diabetes in hospital 1153

37 Assessment and management of patients with endocrine disorders 1159

- Anatomical and physiological overview 1159
- Assessment 1162
- Diagnostic evaluation 1162
- Anatomical and physiological overview 1163
- Pathophysiology 1164
- Pituitary tumours 1165
- Anatomical and physiological overview 1167
- Pathophysiology 1168
- Assessment and diagnostic findings 1168
- Hypothyroidism 1170
- Hyperthyroidism 1175
- Thyroid tumours 1180
- Anatomical and physiological overview 1182
- Hyperparathyroidism 1182
- Hypoparathyroidism 1183
- Anatomical and physiological overview 1185
- Pheochromocytoma 1186
- Adrenocortical insufficiency (Addison's disease) 1187
- Cushing's syndrome 1189
- Primary aldosteronism 1192
- Corticosteroid therapy 1192

unit 9

Kidney and urinary function 1195

38 Assessment of kidney and urinary function 1197

- Anatomical and physiological overview 1197
- Assessment of the kidney and urinary systems 1204
- Diagnostic evaluation 1209

39 Management of patients with kidney disorders 1217

- Chronic kidney disease 1218
- Nephrosclerosis 1220

- Primary glomerular diseases 1220
- Polycystic kidney disease 1224
- Acute kidney injury 1227
- End-stage kidney disease 1232
- Dialysis 1240
- Management of patients undergoing kidney surgery 1254
- Kidney transplantation 1259

40 Management of patients with urinary disorders 1268

- Lower urinary tract infections 1269
- Upper urinary tract infections: Pyelonephritis 1274
- Urinary incontinence 1276
- Urinary retention 1280
- Neurogenic bladder 1282
- Catheterisation 1283
- Cancer of the bladder 1293
- Cutaneous urinary diversions 1295
- Continent urinary diversions 1300
- Other urinary diversion procedures 1301

unit 10

Reproductive function 1307

41 Assessment and management of female physiological processes 1309

- Role of nurses in women's health 1309
- Anatomical and physiological overview 1310
- Assessment 1312
- Diagnostic evaluation 1322
- Menstruation 1324
- Menstrual disorders 1325
- Dyspareunia 1328
- Contraception 1328
- Miscarriage 1334
- Early pregnancy loss 1334
- Termination of pregnancy 1335
- Infertility 1336
- Preconception/periconception healthcare 1339
- Ectopic pregnancy 1339
- Perimenopause 1341
- Menopause 1342

42 Management of patients with female reproductive disorders 1348

- Candidiasis 1349
- Seminal plasma protein allergy 1349
- Bacterial vaginosis 1350
- Trichomoniasis 1351
- Human papillomavirus 1352
- Herpes virus type 2 infection (herpes genitalis, herpes simplex virus) 1353
- Endocervicitis and cervicitis 1355
- Pelvic infection (pelvic inflammatory disease) 1356
- Human immunodeficiency virus infection and acquired immunodeficiency syndrome 1358
- Fistulas of the vagina 1358
- Pelvic organ prolapse: Cystocele, rectocele, enterocele 1359
- Uterine prolapse 1360
- Vulvitis and vulvodinia 1363
- Vulvar cysts 1363
- Vulvar dystrophy 1363
- Ovarian cysts 1364
- Benign tumours of the uterus: Fibroids (leiomyomas, myomas) 1364
- Endometriosis 1365
- Chronic pelvic pain 1366
- Adenomyosis 1366
- Cancer of the cervix 1367
- Pregnancy-related neoplasm 1369

- Cancer of the uterus (endometrium) 1370
- Cancer of the Vulva 1370
- Cancer of the vagina 1372
- Cancer of the fallopian tubes 1373
- Cancer of the ovary 1373
- Hysterectomy 1375
- Radiation therapy 1377

43 Assessment and management of patients with breast disorders 1381

- Anatomical and physiological overview 1381
- Assessment 1382
- Diagnostic evaluation 1385
- Nipple discharge 1389
- Fissure 1389
- Mastitis 1389
- Lactational abscess 1389
- Mastalgia 1390
- Cysts 1390
- Fibroadenomas 1390
- Benign proliferative breast disease 1390
- Other benign conditions 1391
- Reconstructive breast surgery 1411
- Gynaecomastia 1412
- Male breast cancer 1412

44 Assessment and management of problems related to male reproductive processes 1415

- Anatomical and physiological overview 1415
- Assessment 1417
- Diagnostic evaluation 1418
- Erectile dysfunction 1419
- Prostatitis 1424
- Benign prostatic hyperplasia (enlarged prostate) 1425
- Cancer of the prostate 1427
- Patient undergoing prostate surgery 1435
- Orchitis 1443
- Epididymitis 1443
- Testicular torsion 1444
- Testicular cancer 1444
- Hydrocele 1446
- Varicocele 1447
- Vasectomy 1447
- Phimosis 1448
- Cancer of the penis 1448
- Priapism 1449
- Urethral stricture 1450
- Circumcision 1450

unit 11

Immunological function 1453

45 Assessment of immune function 1455

- Anatomical and physiological overview 1455
- Advances in immunology 1464
- Assessment of the immune system 1465
- Diagnostic evaluation 1470

46 Management of patients with immunodeficiency 1472

- Phagocytic dysfunction 1473
- B-cell deficiencies 1475
- T-cell deficiencies 1476
- Combined B-cell and T-cell deficiencies 1478
- Deficiencies of the complement system 1479
- Medical management 1480
- Nursing management for patients with immunodeficiencies 1480

47 Management of patients with HIV infection and AIDS 1484

- HIV infection and AIDS 1484

48 Assessment and management of patients with allergic disorders 1520

- Physiological overview 1520
- Assessment 1524
- Diagnostic evaluation 1524
- Allergic disorders 1528
- Allergic rhinitis 1530
- Contact dermatitis 1538
- Atopic dermatitis 1539
- Adverse drug reactions 1539
- Urticaria and angio-oedema 1540
- Hereditary angio-oedema 1540
- Cold urticaria 1540
- Food allergy 1541
- Latex allergy 1542

49 Assessment and management of patients with rheumatic disorders 1548

- Rheumatic diseases 1548
- Diffuse connective tissue diseases 1560
- Degenerative joint disease (osteoarthritis) 1569
- Spondyloarthropathies 1572
- Metabolic and endocrine diseases associated with rheumatic disorders 1573
- Gout 1573
- Fibromyalgia 1575
- Miscellaneous disorders 1576

unit 12

Integumentary function 1579

50 Assessment of integumentary function 1581

- Anatomical and physiological overview 1581
- Assessment 1585
- Diagnostic evaluation 1594

51 Management of patients with dermatological problems 1597

- Skin care for patients with skin conditions 1597
- Wound care for skin conditions 1598
- General pruritus 1603
- Perineal and perianal pruritus 1604
- Hidradenitis suppurativa 1605
- Seborrhoeic dermatitis 1605
- Acne vulgaris 1606
- Bacterial skin infections 1608
- Viral skin infections 1610
- Fungal (mycotic) skin infections 1612
- Parasitic skin infestations 1612
- Psoriasis 1615
- Exfoliative dermatitis 1618
- Pemphigus vulgaris 1620
- Bullous pemphigoid 1620
- Dermatitis herpetiformis 1621
- Toxic epidermal necrolysis and Stevens–Johnson syndrome 1622
- Benign skin tumours 1625
- Malignant skin tumours 1626
- Metastatic skin tumours 1632
- Kaposi's sarcoma 1632
- Wound coverage: Grafts and flaps 1633
- Cosmetic procedures 1634
- Laser treatment of cutaneous lesions 1635

52 Management of patients with burn injury 1638

- Overview of burn injury 1638
- Management of burn injury 1646
- Outpatient burn care 1670

unit 13**Sensorineural function 1675****53** Assessment and management of patients with eye and vision disorders 1677

- Anatomical and physiological overview 1677
- Assessment 1680
- Diagnostic evaluation 1682
- Refractive errors 1684
- Vision impairment and blindness 1684
- Glaucoma 1691
- Cataracts 1695
- Corneal dystrophies 1699
- Keratoconus 1699
- Corneal surgeries 1699
- Refractive surgeries 1701
- Retinal detachment 1702
- Retinal vascular disorders 1704
- Age-related macular degeneration 1704
- Orbital trauma 1706
- Ocular trauma 1708
- Dry eye disease 1710
- Conjunctivitis 1711
- Uveitis 1713
- Orbital cellulitis 1713
- Benign tumours of the orbit 1714
- Benign tumours of the eyelids 1714
- Benign tumours of the conjunctiva 1714
- Malignant tumours of the orbit 1714
- Malignant tumours of the eyelid 1714
- Malignant tumours of the conjunctiva 1715
- Malignant tumour of the globe:
 - Ocular melanoma 1715
- Orbital surgeries 1715
- Enucleation 1716
- Diabetic retinopathy 1717
- Cytomegalovirus retinitis 1717
- Hypertension-related eye changes 1718

54 Assessment and management of patients with hearing and balance disorders 1721

- Anatomical and physiological overview 1721
- Assessment 1724
- Diagnostic evaluation 1726
- Cerumen impaction 1730
- Foreign bodies 1731
- External otitis (otitis externa) 1731
- Malignant external otitis 1731
- Masses of the external ear 1732
- Gapping earring puncture 1732
- Tympanic membrane perforation 1732
- Acute otitis media 1732
- Serous otitis media 1733
- Chronic otitis media 1733
- Otosclerosis 1736
- Middle ear masses 1736
- Motion sickness 1737
- Ménière's disease 1738
- Benign paroxysmal positional vertigo 1739
- Tinnitus 1739
- Labyrinthitis 1739
- Ototoxicity 1739
- Acoustic neuroma 1743
- Hearing aids 1743
- Implanted hearing devices 1745
- Hearing guide dogs 1746

unit 14**Neurological function 1749****55** Assessment of neurological function 1751

- Anatomical and physiological overview 1751
- Assessment: Neurological examination 1763
- Diagnostic evaluation 1771

56 Management of patients with neurological dysfunction 1778

- Supratentorial and infratentorial approaches 1796
- Transsphenoidal approach 1802
- The epilepsies 1804
- Status epilepticus 1810

57 Management of patients with cerebrovascular disorders 1817

- Ischaemic stroke 1817
- Haemorrhagic stroke 1832

58 Management of patients with neurological trauma 1840

- Head injuries 1840
- Brain injury 1842
- Spinal cord injury 1854

59 Management of patients with neurological infections, autoimmune disorders and neuropathies 1869

- Meningitis 1869
- Brain abscess 1872
- Encephalitis 1873
- Fungal encephalitis 1874
- Creutzfeldt–Jakob and variant Creutzfeldt–Jakob disease 1875
- Multiple sclerosis 1876
- Myasthenia gravis 1883
- Guillain–Barré syndrome 1885
- Trigeminal neuralgia (tic douloureux) 1889
- Bell's palsy 1891

60 Management of patients with oncological or degenerative neurological disorders 1895

- Brain tumours 1895
- Cerebral metastases 1901
- Spinal cord tumours 1905
- Parkinson's disease 1907
- Huntington's disease 1915
- Alzheimer's disease 1917
- Motor neuron disease 1921
- Muscular dystrophies 1923
- Degenerative disc disease 1924
- Herniation of a cervical intervertebral disc 1925
- Herniation of a lumbar disc 1929
- Postpolio syndrome 1930

unit 15**Musculoskeletal function 1935****61** Assessment of musculoskeletal function 1937

- Anatomical and physiological overview 1937
- Assessment 1944

62 Musculoskeletal care modalities 1954

- The patient in a cast, brace or splint 1954
- The patient with an external fixator 1961
- The patient in traction 1963
- The patient undergoing orthopaedic surgery 1968

- 63** Management of patients with musculoskeletal disorders 1985
- Low back pain 1985
 - Common upper extremity problems 1989
